NEW

Needle Punching is easy to start and impossible to stop!

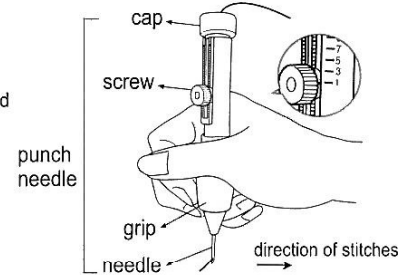

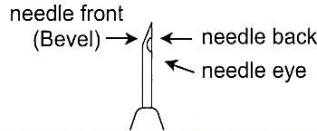

Item No.	Description
PN- 001PK	Punch Needle Set
PN- 001	Punch Needle x 1pce
PN-101	1-ply needle x 1pce
PN-102	3-ply needle x 1pce
PN-103	yarn needle x 1pce
PN-200	Needle Threader x 1pce

* The replacement of needles and threaders are available for individual purchase.

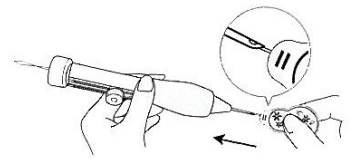

HOLDING THE NEEDLE

- Hold the punch needle on its Grip.
- Face the Needle Front (Bevel) in intended direction and keep in a vertical position.

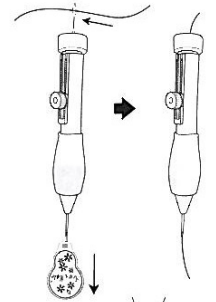

THREADING THE NEEDLE

1 Insert the threader into the Punch Needle from the needle point and completely through its barrel until it comes out the opposite end of the punch needle.

2 Insert thread/yarn into the Threader Loop and pull the Threader back out of the needle.

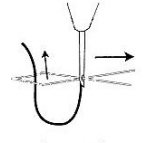

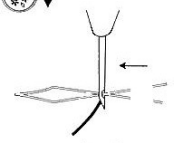

Pull the thread/ yarn downward out of the Threader Tip end and remove the thread or yarn from the threader.

3 Insert the Threader through the Needle Eye from the Needle Back of the needle tip.

4 Place the end of the thread/yarn into the Threader and pull the threader back out of the needle eye.

Pull the thread/yarn downward out of the threader tip and remove the thread/yarn from the threader.

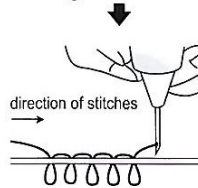

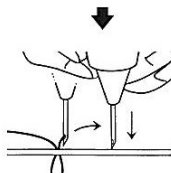

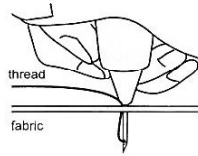

5 Threading is completed.

PUNCHING TECHNIQUE

• Punch needle should penetrate all the way into the fabric so the Grip of the needle touches the fabric. The needle must be pushed all the way in on each stitch to make an even look.

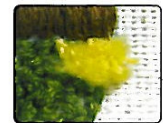

• Lift needle out of fabric, just enough to move to next stitch. Keep the needle as close to the material as possible. Lifting the needle too high shortens the loops on the front of the design and creates unwanted loops on the back.

Example

Needle Punching is an easy, unique and beautiful craft that can be applied to almost of clothing.
 ■Quilt ■Purses ■Cushion Covers ■Towels ■Table Cloths ■Place-mats ■Table Runners ■Wallhanings ■Totes and more as your imagination can reach.

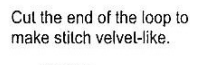

• Backstitch(front of fabric)

• Satin/Zigzag stitch (front of fabric)

Loop-like (back of fabric)

Velvet-like (back of fabric)

Cut the end of the loop to make stitch velvet-like.

MACHINE PUNCH NAALD - AIGUILLES PUNCH MACHINE - MACHINE PUNCH NEEDLES

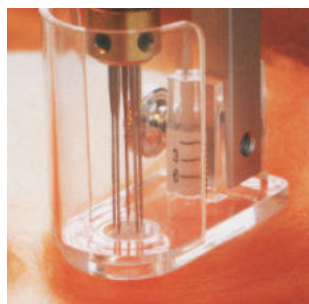

010.000.005

Maak vervilte grafische motieven, vooral mooi op wollen stoffen.

Leg geweven stof met een dessin op een ondergrondstof en "punch" over de stof.

Versieringen of slijteffecten op denim.

Met de punch naalden worden de materialen niet aan elkaar genaaid, maar verweven. De naalden hebben weerhaken welke de stof verweven, zodat U prachtige resultaten krijgt.
Aiguille spéciale pour aiguilletage (aspect feutré). Equipée de petits harpons sur le coté de l'aiguille, elle incruste une matière dans une autre ou elle déstructure une matière (exemple: organza). S'utilise uniquement avec le matériel adapté: pied accessoire Bernina à aiguilletter ou machine spécialement adaptée à l'aiguilletage (feutrage)!
